fine work. Paul McCabe, due to ear trouble, has to give up spearfishing and I shall carry on Paul's post as Sports' Secretary. Could all club members please be at Allimans at least twenty minutes before roll-call to enable me to fill in the summary sheet, collect the sign-on money and get into my wet suit. Members arrive at avenue two minutes before roll-call and start pelting two bobs at me, expecting me to be able to remember their names and look after their dough. No doubt you might get a bit upset swimming around in a comp, being weighed down with a wetsuit full of two bobs from latecomers.

The club teams, grade scores, aggregate and species' competitions are at an interesting stage as at the Allimans in April.

The club meeting is on the third Wednesday of the month in the Kogarah School of Arts. All beginners and new members are welcome. The welcome also extends to all those who are already members of the Dolphins as there is a striking absence of old faces at our meetings to impress the beginners with fish tales. Any requiring further information may ring myself, Trevor Carter, at 58-9670.

Could any Dolphin with a photo of himself with anything of any size lend me the photo to go in the magazine.

April Activities

April 4:

Kiama Blow Hole and Friars Cave. Some 30 members turned up on this day. No matter how many times we go down there, there are always members who have not been to either spot. Among those who made their first jump in the Hole were Janis Richards, Grant Warren, Roger Booth and Lloyd Large. The club then went around to Friars Cave in the afternoon.

April 11:

Helmet Diving Day at Dolans Bay.

First-timers in the Helmet were, Liz Auty, Janis Richards and Grant Warren. We now have 3 more confirmed Helmet Divers in the club. Anyone who would like to use the Helmet only has to join the club. Tom Byron transported Don Stewart's wet sub down to Dolan's and Denis Robinson acted as test pilot. The sub still has a few bugs in it.

Easter Holidays:

No official outing but members went in all directions.

Denis, Sylvia, Prof., Joan, Lloyd and air trailer were down the South Coast diving with members of Victorian clubs.

Bruce, Cathy, Bob and Janis were staying down at Huskisson.

Chris, Whitey and company were at Wreck Bay getting the big ones.

Bob Scott, Grant Warren, Colin Linklater, John Allen, Alan Moule and Dave Allen were cave diving at Tuglow Caves in the Blue Mountains' area. Initial exploration of the river extensions were made with promising results, the deepest dive made was 70ft.

April 20:

Slide night at Denis Robinson's shop. Club meeting not held due to Public Holidays.

May 17:
