

places, visibility wasn't too bad. Three members attended this dive with only two doing well. It's good to see someone in the club is rich enough at last to be able to afford the luxuries of a boat and, "oh, boy", you don't even have to row it, it's got a motor. (Oh! to be rich.)

A member of the nurse family was found lazing around Merimbula Point not very long ago and was savagely attacked by a "Stingray", this is a warning to all those bitey things, Gill is on the warpath, so beware.

Ah well, till next month, see you in shark alley.

Kingsgrove

Club Meeting — 16th Feb.

Small meeting with only about 25 members present. Discussion was on the proposed skin diving convention to be held by the U.S.F.A. in Sydney. We are in support of this activity.

Notice is also given for the State Ball on April 11 at Rockdale Town Hall. We most likely will have a group going.

Movies shown by John Hansens.

Past Activities.

Jan. Long Weekend.

Tom and his crew shot off to Jervis Bay where they apparently had a quiet time even though Rick and Lindsay were there. Dives were held at Point Perpendicular where the water was dead clear and abounding with big kingies. Even old Tom got excited over them as he tried to clobber one with his shark billy.

Lindsay speared a 45 pounder which later weighed in at 10 lb. — typical.

Finally they were scared out of the water by a huge fin that they thought must be attached to a 40' white pointer, but on closer examination appeared to be a small sunfish.

Denis, Kim, Dick and myself amused ourselves at Norah Head where the water we found was too shallow and not worth diving, so we had a boomerang throwing competition, which finished up by me losing Robbo's beaut abo boomerang.

Talking of Lindsay, he was at the Club Meeting last week, wonder what has happened.

John Luton is again in the news as he is hoping to get off to South Africa.

Future Activities.

Feb. 22nd — M.S.M. Treasure Hunt at Shell Harbour.

Mar. 8th — Dobroyd Point.

Mar. 15th — John Sumner has a trawler that will be going possibly to the Long Reef Shark gutter or to the Birchgrove Park.
