## EDITORS CORNER

Where does the time go, no sooner is one wet rag out, than another is due.

I used this line last month, but it is more pertinent now than then. I just seem to run out of time. It is interesting to note, that some years ago we were all monetarily poor. Now we all seem to be time poor. What is going on in this world.

This wetrag will most likely be short and concise, o/k forget the concise bit. I just have had no input from anyone, well almost no one. To those that have sent me something, thankyou. To those that have not, well I know what I'm thinking, but I had better not type it.

I am thinking about putting out an annual issue instead of monthly, that way I would be able to include all the stories sent in at one time and still keep it down to 14 pages.

I suppose by now you have got the hint, so I will move on.

Thanks to Martin, I now have to apologise again and make amends re Life membership to SPDC.

**1st was Dennis Robinson** (W.A). He was the first ever President. Awarded Life membership about 1980

**2nd was Bob Smith** awarded 1981.

**3rd was Rick Latimer** - awarded 1993 or 4 - Need to clarify this date.

**4th was Martin Kandilas** - awarded 1997

**5th is Tom Byron** - awarded 2001

Now I hope that I have this right this time.

You will have got this wetrag a little later than usual, but it should not impact on June's issue. Ha Ha De Ha Ha!

Enjoy

Ed

## PRESIDENTS POSSIE

I have to apologise for my inability to attend the meeting this month, but my work commitments are a little pressing at the moment, but I sent Evelyn along to say hi.

Congratulations to all those that are winners in the George Roberts finals and a big thankyou to Noel for his efforts with this competition. An especially big thankyou to all the sponsors for this comp.

I'm a bit disappointed to see our dive Organiser take a dive and resign, but I understand that this job is often difficult and thankless and when attendances are down, it seems a hopeless task. Thanks for the attempt Simon.

I understand from Grey that ticket sales to the AV night are well and truly underway and the need for those of you wishing to attend, it is paramount that you make sure that you secure your seat by contacting Grey, or for that matter any other committee member. Hope to see you all there.

It is good to see that the forgotten situation of life members is being re-addressed, as these people have all played a very important part in the Club's history and should not be relegated to the archives. Having said this there is an issue of another founding member that it is understood was going to be made a life member some years back, but for whatever reason, was put on the back burner. I would like to bring this up at the June meeting for further consideration.

With winter coming upon us, so to will come the clean water, so for you budding photographers that want to enter the coming competitions that may be held in the future, now is the time for your local preparations. Remember, there are many competent photographers in your club, so if you are unsure of yourself, just ask away. Many of the mistakes made in photography can be negated by getting the knowledge from an experienced, rather than experience.

Good safe diving folks.

Your Presidente'

*Bernie*

## Simon's Corner

Simon has tendered his resignation as dive boss due to lack of  
pressure upon himself and the position.

If you are looking for an organised dive in the short term and  
are unable to get others motivated for your needs, there are  
always such dives available at and with our sponsors. Shiprock  
Dive, Aqua Sports and Sea Tamer can satisfy your every desire.  
Just call them on the telephone numbers listed through the  
wetrag. No "dive organiser", is not an excuse not to dive and  
get those great pictures.

## **NEW MEMBERS ARE WELCOME TO ATTEND OUR CLUB MEETINGS AND DIVE OUTINGS**

South Pacific Divers Club is a social scuba diving club whose  
members have a common interest in scuba diving and in  
particular underwater photography. Club dives are on our web  
site. The club also organises weekends away at Jervis Bay and  
Nelsons Bay as well as other dive areas. We also organise once  
a year the Australasian Underwater Photographer of the Year  
Competition, open to all underwater photographers in Australia  
and Overseas. We also have a slide show after every meeting.  
South Pacific Divers Club holds monthly meetings at the  
Bankstown Sports Club on the third Monday of every month.  
Meetings start at 8:00 and generally a slide show follows.

## Little penguin habitat in Sydney's North Harbour: declaration of critical habitat

A population of little penguins (*Eudyptula minor*) lives in Sydney's North Harbour, near Manly. It is the only known breeding colony on mainland NSW. The penguins nest in rock falls and rocky shorelines, mostly on land that is outside conservation reserves.

The population is threatened by predation by dogs, cats and foxes, loss of suitable breeding habitat and disturbance around nest sites. In January 1997, it was listed as an endangered population under the Threatened Species Conservation Act.

Now, the National Parks and Wildlife Service is recommending that areas of little penguin habitat in North Harbour should be listed as critical habitat under the Threatened Species Conservation Act. This will allow better protection of the habitat that is vital to the survival of the little penguin population.

You can download the critical habitat recommendation, and other related documents, at the bottom of this page. You can also view printed copies at:

- the National Parks Centre
- the NPWS research library
- Manly Council Chambers, 1 Belgrave Street (PO BOX 82), Manly.

The critical habitat recommendation is on public exhibition until 14 June 2002. You can tell us what you think about it by sending us a submission. Download a submission form (*PDF format - 39KB*), then send your comments to the following address:

Little Penguin Recovery Program Coordinator  
Threatened Species Unit  
Central Directorate  
PO Box 1967  
HURSTVILLE NSW 2220

All submissions must be received by 14 June 2002.

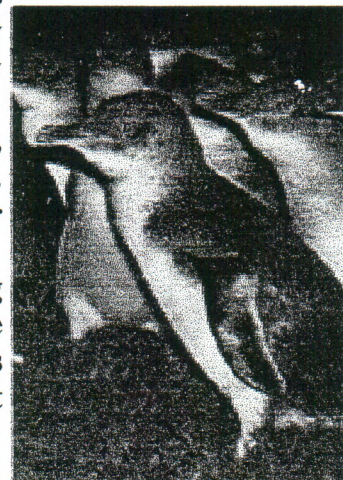

Download the critical habitat recommendation documents

- Draft Threatened Species Conservation Regulation 2002 (*PDF file - 551KB*)

In Saturday's SMH and Telegraph there were notices advertising the Grey Nurse Shark Draft Recovery Plan and the Notice of Preliminary Identification of Critical Habitat. The relevant documents are located on Fisheries web site at:

<http://www.fisheries.nsw.gov.au/conservation/species/grey-nurse/home-grey-nurse.htm>

There will be a Community Information Day in Sydney on Monday 27 May at Bowen Library, Anzac Parade Maroubra from 3 pm till 7 pm. We need to make sure that divers are well represented at this as well as making sure we get our submissions in by the closing date of 28 June 2002.

## **\$40,000 IN PRIZES**

Entries have now closed and the response to this event has been great once again.

If you are entering this competition as an SPDC member, just make sure that you have paid your membership fees, as this is an essential criteria for such entry and any entry that is found to the contrary will be disqualified.

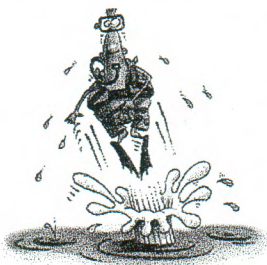

Please make sure that you contact Grey or Noel for your seats to this event as they are limited and selling out extremely fast and this is even after allocating more seating than last year.

## Lake Jindabyne

Last week I went down to Lake Jindabyne to dive the old town that was flooded in the early 1960s by the construction of a dam wall for hydro electricity and irrigation of the Murray Valley..

We arrived on Sunday night and stayed in the Caravan Park in self-contained cabins that are quite good value for money. We also hired boats from the Caravan Park that can be driven by anyone, including those who do not have a current waterways boat licence. The diving was better than I expected. I have had different reports on how good and how bad the diving is in Lake Jindabyne. I found it really interesting to dive on a part of history where we saw lots of old bits and pieces lying on the bottom of the lake. We saw old different types of equipment, fences, shoes and drums of all types.

The visibility around 5 to 7 metres and the temperature 12 degrees (my dry suit) every day that

I recommend to people that have never dived in fresh water or at altitude to dive the lake. The diving is easy and ranges from about 2 to 14 metres where a lot can be seen. We also dived the old homestead which was great. We saw the front gate, which then goes up a path to the house, and you can follow the verandah around to front of the house. There is also an old well in the yard that goes down a few metres. All in all a different but enjoyable dive trip.
