North Tce., ADELAIDE. S.A.
7th April, 1959.

Dear Member,

Once again the Quarterly News Sheet.

MEETINGS During the Museum meetings of the last quarter the speakers were Dr. Daily on Fossil Vertebrates, Mr. A. Hill on Cave forms in S.E. Limestones, and Mr. F. Sanders on Caves and Mythology.

ANNUAL GENERAL MEETING This was held on 25th February. The annual elections were held and the new office bearers are:

President -----Mr Hill
Vice President -----Mr Sexton
Secretary -----Mr Mollet
Treasurer -----Mr Linke

Other Committee Members:

Messrs. P. Love, A. Mead, D. Lanyon, J. Somerton.
Dr. Daily continues as the Museum representative.

TRIPS: Three of the four trips during the quarter were in the South East, being to Naracoorte and Mt. Gambier primarily a tourist trip to relocate and explore caves previously known only to very few members.

Successful trips were also held in the "Avenue Range" and Penola areas. Public relations in Penola are improving considerably.

The final trip of the Quarter was held at Kelly Hill. This, as all previous K.I. trips, resulted in a bigger and better Kelly Hill Cave. Survey trips to Curramulka are planned for the next quarter.

ABSENT FRIENDS:

June and Ken Lynn. Ken has graduated from furniture to a good job apparently in his old profession with a consulting firm. June is keeping house and intermittently cultivating "Spotty Tonsils".

Luke Howard. Very little news is filtering through, but she is apparently travelling round a fair bit.

Elery H. Smith appears to be lost missing since Xmas. Believed buried under A.S.F. circulars.

Marian and Jack Dolan. Latest reports put the garden and paths in excellent order, and the development about the New Year now called Frederick John is keeping them busy.

NEW MEMBERS Miss J. Peters and D. Burman.

BRAIN WASH (1) Trip Reports. Many are still outstanding, is yours?
(2) Are you financial?

Yours sincerely,
N.J. MOLLET, HONORARY SECRETARY.

[Here should a payment form as per Vol 4#1]
