

July - October 1962.

FORMAL NOTICE is hereby given that at the General Meeting 25th July the following amendments to Constitution will be proposed:

- 1 Constitution C.E.G.S.A. Section 3 Subsection (a) that the last phrase shall read "That all applicants must own an approved helmet, be proposed and seconded by financial members . . . "
- 2 That the following clause shall be added to Section 3 Subsection (b) Clause (ii) "A condition of Associate Membership shall be that upon completion of 50 hours underground he shall own an approved helmet".

TRIPS. During the last quarter only 2 official trips have been held and is believed that at the completion of the Wooltana trip the following salvage was available at cheap rates.

- Item 1 2 slightly used shop soiled gear boxes suitable for light duty constant ratio Only.
- Item 2 1 Immaculate green motor car quite serviceable if fitted with new engine and accessories.
- Item 3 1 flexible-crowned hardhat only used once.
Guaranteed one owner bargain..

The second trip was to Naracoorte and was mainly an orientation weekend. A little work was done in the "Smoke Cave" and the bats or absence of them was noted, but the main programme was location of known holes and a quick "look see" in each. The Naracoorte division have another on the compass bearing (take a bow Allan) and it appears quite interesting.

SOCIAL. During the last quarter another member female has caught a poor unsuspecting male and stopped his wandering.

Congratulation Nancy Duggan.

A visitor from N.S.W. Ted Lane, to wit has been over for a while, and amongst other things tells us that the club has found a siphon in Weebubbie but could not crack it completely due to a shortage of lifeline, but could see a large chamber above water again.

GENERAL. A map of Koonalda turned up at last from Holland, where it was drawn up by John Hinwood. Better late than never.

The Group has been active also in regard to the Duke of Edinburgh Award scheme, and two of our boys have been out with hiking groups attempting the Award. During the latter tests of this scheme we hope to have some of these lads coming caving with us and so we trust we labour not in vain.

Finally it must be definitely understood by all club members that all offices and rooms at Nat. Fitness. Council except those booked for meetings are prohibited areas and must not be entered. Nor may any material or equipment be borrowed without due reference to an officer of the Council.

July, 1962.

BI-ELECTION

Formal notice is hereby given that a bi-election will be held at the General Meeting on the 22nd August, 1962, for the position of Treasurer. This is due to the retirement from Committee of Dodge Farmer who, due to other activities, has been forced to resign.

SAFETY RULES

For some months now your Committee has been desirous of compiling a list of caving safety rules for the Group, and to this end all members are invited to submit thoughts and suggestions on their own pet "safety bugs" and others. These should be set out on one side of the paper only, with at least a two line spacing between each section or heading, and handed to the Secretary at the next General Meeting for perusal and collation by the Committee. By this method and with the full co-operation of members it is felt that we will obtain a complete coverage of the major and minor dangers of all aspects of caving. We look forward to some contribution from every member.

CAVE EXPLORATION GROUP (SOUTH AUSTRALIA)

PROGRAMME.

July - October 1962.

7-8 JULY PUNYELROO, SWAN REACH. This small insignificant hole that is becoming more significant each trip. Leader: PHIL CONARD.
