Re: Broken River maps and waypoints

On this CD you will find:

- Three images (*.jpg) with the various waypoints and 'tracks' marked thereon. 'Tracks' are the movements of my GPS on foot or *via* vehicle.
- A detailed image (turtle.jpg) of my wanderings over Turtle Creek Tower (for a laugh).
- A list of waypoints as a *.txt file.
- The maps as Oziexplorer map files (*.map).
- The waypoints as Oziexplorer files (*.wpt).
- The 'tracks' as Oziexplorer files (*.plt).
- All six portions of the Burges 1:100,000 sheet as *.jpg images.

If you haven't already investigated Oziexplorer look at <oziexplorer.com>.

I hope you find this useful.

Any questions – don't hesitate to contact me.

Cheers

Andy Spate
