

Notes on PDF reprint of *Association for Mexican Cave Studies Newsletter*, volume 2:

Volume 2 of the newsletter was edited by Terry Raines and was nominally published bimonthly in 1966. However, number 4 was actually published in March 1967, number 5 was published in January 1968, and number 6 was published in March 1968.

The PDF consists of page scans and hence consists entirely of graphic images. The text is not searchable by the PDF-reader program.

Numbers 1 through 4 were printed on one side of the sheet, and PDF pages 1 through 110 are accordingly set up for one-sided printing; there are no blank pages except one at the end of number 4 so that number 5 begins on a right-hand page. Numbers 5 and 6 and the index were printed on both sides of the sheet, and PDF pages 111 through 204 are set up for two-sided printing; that is, blank pages appear where necessary to keep the sides in sync with the original. In particular, there are blank backs of the cover sheets in the PDF file. (The page numbers on the right-hand pages are even, contrary to the standard practice.) The back cover sheets originally supplied for all parts are not included in the file.

Pages 18 and 60 were foldouts. Reduced versions of their contents are included in the main PDF file. Full-size copies are included in separate PDF files.

Because the cover sheets were not assigned page numbers, the page numbers in the issues become increasingly different from the pages in the PDF file. The table below shows the PDF page of the cover sheet for each issue and the original number of the first numbered (non-cover) page of each issue. For example, page 49 of the original falls on page 52 of the PDF file because that page is in the one-sided part; original page 131 falls on PDF page 139 because the cover of number 6 occupies two pages.

issue number	PDF page of cover	first numbered page
1	1	1
2	22	21
3	51	49
4	75	72
5	111	106
6	137	131
index	194	186
