

Notes on PDF reprint of *Association for Mexican Cave Studies Newsletter*, volume 3:

Volume 3 was edited by Terry Raines. While the first number has the cover date January–February 1967, the volume was actually published sporadically. Publication dates are given in the table.

The PDF consists of scans of the pages and hence consists entirely of graphic images. The text is not searchable by the PDF-reader program.

Volume 3 was printed on both sides of the paper, and the PDF is set up for double-sided printing; there are blank backs of cover sheets and other special pages that were printed on only one side. Front cover sheets are present in the file, but the blank back covers of the original issues are not. Because the cover sheets were not assigned page numbers in the originals, the page numbers in the PDF file differ increasingly from the page numbers in the original. The table shows the PDF page on which the front of the cover sheet appears for each issue and also gives the original number of the first page of the issue. For example, original page 53 appears on page 61 of the PDF file because the cover of number 4 occupies two pages.

Pages 29, 57, 109, and 127 were foldouts. Reduced versions of the pages are included in the main PDF file, and separate PDFs of the foldouts at original size are included.

The index was produced separately later. It, with a blank cover sheet added, has been appended at the end of the PDF. The index itself starts on PDF page 163.
