## References and further information

### How to use this section

Three separate listings are provided to assist users to find the information they want quickly and easily. The listings are:

1. **Websites and databases**—this section provides details of selected Internet sites and databases relevant to the TWWHA. Listed by topic.
2. **References cited in this report**—this section provides details of publications and reports cited in the body of this report. Listed alphabetically by author.
3. **Further reading**—this section provides details of key publications and reports relevant to management of the TWWHA. Listed by topic. Note that this section does not provide a full bibliography of the extensive literature related to the TWWHA but is intended to provide the interested reader with an entry point to the literature.

### 1. Websites and databases

#### International Agreements and World Heritage Sites

UNESCO, viewed 6 August 2003, <<http://whc.unesco.org/>> This site provides information about the World Heritage Convention and World Heritage sites. <<http://whc.unesco.org/heritage.html>> details all current world heritage sites worldwide.

UNESCO World Heritage Centre, World Heritage Information Network, viewed 6 August 2003, <<http://www.unep-wcmc.org/whin/index.html>>. This site is a clearing-house for information about the natural and cultural sites inscribed on the World Heritage List.

UNESCO Man and the Biosphere Program, viewed 6 August 2003, <[www.unesco.org/mab/wnbr.htm](http://www.unesco.org/mab/wnbr.htm)>. This site provides information about all biosphere reserves.

Department of the Environment and Heritage, viewed 31 October 2003, <<http://www.ea.gov.au/heritage/awh/worldheritage/index.html>>. This site provides information about all Australian World Heritage sites.

Department of the Environment and Heritage, viewed 6 August 2003, <<http://www.ea.gov.au/biodiversity/index.html>>. This site provides information about the Convention on Biodiversity, the Ramsar Convention, and Australia's biodiversity regions, programs and management.

## Tasmania's socio-political and legislative framework

Tasmanian *Together* Progress Board, viewed 23 October 2003, Tasmania *Together*, <<http://www.tasmaniattogether.tas.gov.au/>>. This site details Tasmania's long-term strategic plan for achieving the social, economic and environmental aspirations of Tasmanian society. Includes Progress Reports.

Department of Premier and Cabinet (Tasmania), viewed 23 October 2003, <<http://www.thelaw.tas.gov.au/>>. This site details Tasmania's legislation, including the *National Parks and Reserves Management Act 2002* and the *Nature Conservation Act 2002*. Note that the types of reserved land are described in Schedule 1 of the *Nature Conservation Act*, and the objectives for management of reserved land are presented in Schedule 1 of the *National Parks and Reserves Management Act*.

Department of the Environment and Heritage (Australia), viewed 23 October 2003, <<http://www.ea.gov.au/epbc/index.html>>. This site provides information on the *Commonwealth Environment Protection and Biodiversity Conservation Act 1999*. <<http://www.ea.gov.au/heritage/awh/worldheritage/index.html>> provides information about Australian World Heritage sites and provides links to the Australian Heritage Commission and the Register of the National Estate.

## Protected area management

IUCN (The World Conservation Union), viewed 13 October 2003, <<http://www.iucn.org/wpc2003/>>. This site includes the Recommendations, congress papers and other outputs of the IUCN Vth World Parks Congress, Durban, South Africa 8–17 September 2003.

United Nations Environment Programme (UNEP) World Conservation Monitoring Centre, viewed 8 October 2003, <<http://www.unep-wcmc.org/>>. This site provides information for policy and action to conserve the living world, including information about species, forests, protected areas, habitats, global environment issues etc.

Department of the Environment and Heritage, viewed 23 October 2003, <<http://www.ea.gov.au/parks/best-practice/reports/index.html>>. This site provides a wide range of Best Practice Reports in Park Management developed by the Australian and New Zealand Environment and Conservation Council (ANZECC) Working Group on National Parks and Protected Areas Management.

## Tasmanian Wilderness World Heritage Area

Department of the Environment and Heritage, viewed 6 August 2003, <<http://www.ea.gov.au/heritage/awh/worldheritage/index.html>>. This site provides information about Australian World Heritage sites including the Tasmanian Wilderness World Heritage Area.

Parks and Wildlife Service, viewed 25 May 2004, <[www.parks.tas.gov.au](http://www.parks.tas.gov.au)>. This site provides information about the TWWHA and other Tasmanian national parks and reserves. For information about the TWWHA and its values, follow the links to Visitors' Guides and Tasmanian Wilderness World Heritage Area. For information about the TWWHA management plan and other TWWHA publications, go to the Services and Management page and follow the links to Publications and select 'Management Plans, Site Plans and other publications'. For information about the Walking Track Management Strategy go to the Track Management Team page and follow the links. General information for visitors to the TWWHA is available under 'Services and Management/Fact Sheets'. For a history of the Parks and Wildlife Service and its administrative changes, go to the page 'About the Parks and Wildlife Service'.

## Tasmanian tourist information

Department of Tourism, Parks, Heritage and the Arts (Tasmania), viewed 6 August 2003, <<http://www.dtpha.tas.gov.au>> and follow the links to Tourism/Discover Tasmania. This site provides information about things for people to do and see in Tasmania, and places to stay etc.

Bureau of Meteorology (Tasmania), viewed 6 August 2003, [www.bom.gov.au/climate/averages/tables/ca\\_tas\\_names.shtml](http://www.bom.gov.au/climate/averages/tables/ca_tas_names.shtml)>. This site provides information about weather records for locations across Tasmania including sites within the TWWHA e.g. Maatsuyker, Cradle Mountain, Lake St Clair and Strathgordon.

## Natural resource information and management

Department of the Environment and Heritage, viewed 5 November 2003, <<http://www.deh.gov.au/nrm/monitoring>>. This site provides information about the national Natural Resource Management program and includes the documents 'National Natural Resources Management Monitoring and Evaluation Framework' and the 'National Framework for Natural Resource Management Standards and Targets'.

Department of Primary Industries Water and Environment (DPIWE), viewed 23 October 2003, <[www.dpiwe.tas.gov.au](http://www.dpiwe.tas.gov.au)>. This site provides information about Tasmania's environment and natural resources including flora, fauna, threatened species, introduced species, air and water quality, and natural resource management. It also includes information about the state's cultural heritage. Note that at the time of writing, web-based information relating to the natural resources of the Tasmanian Wilderness World Heritage Area is located in both the DPIWE and DTPHA websites following the 2002 restructure of agencies which saw the Parks and Wildlife Service excised from DPIWE and relocated in the newly formed Department of Tourism, Parks, Heritage and the Arts (see below).

DPIWE Geographical Information System (GIS), viewed 6 August 2003, <[www.gis.parks.tas.gov.au](http://www.gis.parks.tas.gov.au)> provides one of the key tools used for informing management of the TWWHA. The GIS Web Server provides access to a wide range of scientific data and maps about the natural resources of the TWWHA, including detailed vegetation maps of the TWWHA. The GTSpot database includes inventories and records of geological, geomorphic and soil sites of geoconservation significance, flora and fauna records, introduced species records, plant diseases and dieback. Note that the GTSpot database has restricted public access and users need to request a login using the online form.

Department of Tourism, Parks, Heritage and the Arts (DTPHA), viewed 25 May 2004, <<http://www.dtpha.tas.gov.au>> and follow the links to Parks. This site provides information about the TWWHA and other Tasmanian national parks and reserves. For information about the TWWHA and its values, follow the links to Visitors' Guides and Tasmanian Wilderness World Heritage Area. For information about the TWWHA management plan and other TWWHA publications, go to the Services and Management page and select 'Management Plans, Site Plans and other publications'. For information about the Walking Track Management Strategy go to the Track Management Team page and follow the links.

Note that the Parks and Wildlife Service employs an internal system (MapLink) to provide a centralised resource for information relating to biodiversity, land management and planning in the TWWHA. Core datasets include information and maps on assets and infrastructure, walking tracks, visitor zoning, visitor statistics, recreation opportunities, geology, flora, fauna and fire history (including incidence, area burnt and cause for fires in the TWWHA). Much of the underlying resource data is provided by the Resource Management and Conservation division of DPIWE (see above). MapLink can be accessed by PWS staff only at <<http://tracks.parks.tas.gov.au>>. Other databases within PWS house a variety of information relevant to management of the TWWHA including the databased management plan for the TWWHA and lists of individuals and groups interested in being consulted about management of the TWWHA.

## Wilderness quality/ land disturbance information

Department of the Environment and Heritage, Australian Land Disturbance Database, viewed 6 August 2003, <<http://www.heritage.gov.au/anlr/code/ald.html>>. This database was used to produce the map of wilderness quality in Tasmania presented in Figure 17 of this report.

University of Montana Wilderness Institute, Arthur Carhart National Wilderness Training Centre & Aldo Leopold Wilderness Research Institute, Wilderness Information Network, viewed 6 August 2003, <<http://www.wilderness.net>> This site provides an internet-based tool for connecting the natural resource workforce, scientists, educators and the public to information about wilderness heritage.

## Cultural resource information for the TWWHA

The Tasmanian Aboriginal Site Index (TASI) is a register of Tasmanian Aboriginal site information. Due to the sensitivity of this information, this index is available on application only to assist the conservation of Aboriginal cultural heritage. The Aboriginal Heritage Office (DTPHA) manages the index in consultation with the Tasmanian Aboriginal Land Council acting on behalf of the Aboriginal community. It is accessed at the DTPHA office.

The Tasmanian Historic Place Index (THPI) stores information about historic heritage places. The index is primarily a management tool, used mainly by heritage and reserve managers and other government departments to store management information about historic places. Criteria are not used to record an historic place on the index. Due to the sensitivity of the information, the index is only available to department officers through a linked password-protected intranet database, or by application through the Parks and Wildlife Service.

The Tasmanian Heritage Register, established under the *Historic Cultural Heritage Act 1995*, and managed by the Tasmanian Heritage Council, is a register of places that have historic cultural heritage significance in Tasmania. Places on the register can be searched on the Australian Heritage Places Inventory website at <<http://www.heritage.gov.au/ahpi/>>.

The Tasmanian Heritage Council website, viewed 1 September 2003, <[www.tasheritage.tas.gov.au](http://www.tasheritage.tas.gov.au)> provides information about the Heritage Council, Practice Notes, forms and provides links to other useful Internet sites.
