SUSTAINABILITY CREED

AYURVEDA tradition of India 500BC

...world's oldest health care system

Nature has created Man and Woman,
as the highest form of life,
and as life's guardian.

Our survival depends on
the fragile balance of nature
& living organisms.

We must ensure the purity of the water.
We must not poison the air.
We must not poison the soil.

We are interdependent on all other forms of life.

To maintain nature's equilibrium,
depends on our ability to live in harmony
with our external universe,
and our ability to live in harmony
with our internal universe,
ourselves
