Your ref: 200300358

*** Registered Letter ***

Sustainability Policy Unit
c/o Director Prof. Peter Newman

197 St. George's Terrace
Perth WA 6000

How do you do today?

Thank you for your letter of 20 January 2003 referring to my submission to the Western Australian State Sustainability Strategy, Consultation Draft, submitted on 10 January 2003. Today, I send you the up-dated version of my submission, as promised in my letter dated 20030123. My updated submission includes the following documents and electronic material:

+ This letter, 1 page A4 size,
+ 1 CD-ROM (titled: "magFFS WA SSSS 2")

I do not object to my submission being published on the website. As stated in my previous letter, I only want the updated version being published on the website because it contains fewer inconsistencies, and it conveys more accurately what I envision in relation to BEvolution, or advanced sustainability. I hope my effort will BEvolve some of the reader's bodyship and mindship, and factship and mateship, fruitfully and joyfully. Whatever lively response my submission will attract, I can assure you, the readers and myself that I tried my best. However, it is just the beginning of an ongoing sequence of 'change' closer to even less inconsistencies. The challenge has been to present visions in the form of concepts that shall stand up to the test of science and space-time, and to question outdated traditional beliefs.

I very much appreciate the efforts and time spent by the members of Sustainability Policy Unit and other contributing stakeholders in relation to an age-old human dilemma. Namely, how individuals and hence societies are and will be able to address and master effectively and efficiently evolutionary 'change', or BEvolution, conceptually and systematically today and tomorrow.

With Compliments,

Mag. Franz F. Schnattler
Citizen of the planet Earth

1 Enclosure: 1 CD-ROM containing my updated submission (magFFS WA SSSS 2)

NOTE:

My submission IS NOT CONVEYING all
what I have to say and can write down in

Wisdomly Society =
{Dialogship, Unionship, Actionship, Lifeship}
©magFFS

relation to BEvolution, or advanced sustainability, before 28 February 2003.

It is not a multimedia presentation but it fosters visions and realisations for societal BEvolution which are a bare-naked necessity for cosmologically human BEvolution, or advanced sustainability. Folder “9 BEvolutionary SEENergy^” contains all the diagrams. You will only be able to understand BEvolution in its entirety if you view all the diagrams.

Enjoy reading my submission, and BEvolve society and you!

What software will you need for reading my submission?

- ☒ HTM(L) Reading Software (eg. an Internet browser, like MS IE, or Netscape, ...)
- ☒ MS Word97 SR-2 or higher document viewer
- ☒ MS Excel97 SR-2 or higher work-sheet viewer
- ☒ Adobe Acrobat PDF viewer version 4.05c or higher

*When one knows the truth,
 and possesses wisdom,
 then one can be generous
 and magic.*

Mag. Franz F. Schnattler,
 Monday, 16 December 2002, 16:50:00,
 Doubleview (WA), Australia

I welcome the commitment and initiative of the Western Australian Government to **plan**, **use**, **review**, and **enhance** societal BEvolution with sustainable concepts and systems for all of us. I also invite interested individuals to assist equitably and fairly the Government’s commitment and initiative in the **planning**, **usage**, **review** and **enhancement** of Australia’s first comprehensive BEvolutionary, or advanced sustainability set of concepts and systems at the State level. It is an important rethinking goal and activity of an age-old human dilemma, namely how societies are, and will be, able to address and master effectively and efficiently BEvolutionary ‘change’ conceptually and systematically.

The Government’s draft in relation to evolutionary ‘change’, also known as the State Sustainability Strategy, offers objectives and goals, processes and actions how society can **plan**, **use**, **review** and **enhance** the set of concepts and systems that form the vector of BEvolution without restricting the individuals’ abilities and ‘change’. It proposes new visions for concepts and realisations for systems that shall help the individuals and organisations in Western Australia and other societies on the Earth to achieve a more satisfying and secure present and future. Clearly, sustainable societal BEvolution resonates to many individuals and organisations that now see sustainable concepts and systems as the most important quantum leap forward.

The transition to a more satisfying and secure future is a short-term and long-term realisation and vision that daily requires rethinking the way we **D**ialogue, **U**nionise, ie. cooperate, legislate and norm, **A**ct and **L**ive in order to prepare us and our children for the aeonic challenge and opportunity of ‘change’ in thought and deed. The presented draft challenges the individuals to consider new objectives in concepts and processes for systems, that is to be creative in dialogue and innovative in actions with the financial, scientific and technological challenges and opportunities. Today as ever before, the time is also right to accept and adopt advanced sustainable societal evolution as the bare, or naked, necessity of our existence, or beingship. The debate at the recent World Summit in Johannesburg has shown that the realisation of more satisfying and secure BEvolutionary concepts and systems *for all of us* remains an enormous and unresolved challenge and opportunity.

Individuals everywhere are searching for BEvolutionarily creative concepts and innovative systems that contribute fruitfully and joyfully to societal BEvolution in the short-term and long-term. Many Western Australians share this individualistic life and societal-sustaining focus today, and will do so in the future. They all shall comprehend the challenges and opportunities of **SEEN**ergetic BEvolution, that is **S**ocial, **E**cotechnical, **E**nviroative, and **N**ormative concepts and systems and their **SEEN**ergies. I am delighted with the genuine compassion and enthusiasm expressed by so many individuals for this age-old human dilemma thus far. Many people attended seminars, wrote submissions, etc. This input has helped me in BEvolving and **SEEN**ergise my notions, thoughts and proposed actions, or goals, in relation to the draft document. I sincerely hope that the discussed issues and proposed actions will BEvolve concepts and systems without restricting the individuals’ abilities and ‘change’, and additionally, will also form a useful basis for the unavoidable quantum leap thereafter in **BEvolution**.

2 BEvolutionary Vision

Quantum:	Human Cosmos and Microcosm			
Log Number:		Version Number:	2003w10	Draft Document Page: 21 to 33
<i>MY GOAL</i>		<i>COMMENTS</i>		
See Comments' Column!		<p>Some sort of duality prevails in the little world, or microcosm. Quantum physics brought on the wave-particle duality of structures existing in the microcosm. The wave-particle structures possess "causality", "motion", and “position” as humans do. “Measurement” and “Observation” allow us to make statements about the microcosm and the human cosmos as well. Human beings also possess a complementing duality. The bodily duality is the material or particle aspect of existence; the wavy duality is the mind, the thoughtful and voiced aspect of existence.</p> <p>The given account of an existing duality in humans and microscopic structures affirms a common ground sustained in both cosmotic dimensions. This common ground imposes challenges and opportunities on us. It demands and provides SEEnergetic realisations and visions of <u>cosmotic and societal BEvolution</u> so that individuals can exist and thrive within these interrelationships without restrictions on their abilities and evolution, or 'change'.</p> <p>Science Of Sustainability Science Of BEvolution Enhances Societies</p> <p>... — — — SOBEES Needed Urgently ... Quantum:	3.0 BEvolving BEvolution Assessment			
Log Number:		Version Number:	2003w10	Draft Document Page: 34 to 41
MY GOAL	COMMENTS			
Provide transitionary arrangements for quintuple bottom-line assessment including the establishment of five independent assessment units in order to be able to address effectively and efficiently BEvolutionary ‘change’ conceptually and systematically. Finalise by the end of 2005.	<p>Names of Assessment Units:</p> <ol style="list-style-type: none"> 1) SEENergy Assessment Unit (SEENergy, or Social, Ecotechnical, Envirotive, and Normative Synergy, view) 2) Social Assessment Unit (Single view) 3) Ecotechnical Assessment Unit (Single view) 4) Envirotive Assessment Unit (Single view) 5) Normative Assessment Unit (Single view) <p>See also especially</p> <p> Diagram 12 Diagram 15 Diagram 16 Diagram 17 Diagram 18 Diagram 19 </p>			

Quantum:	3.0 BEvolving BEvolution Assessment			
Log Number:		Version Number:	2003w10	Draft Document Page: 34 to 41

<i>MY GOAL</i>	<i>COMMENTS</i>
<p>Establish five Community-Industry-Government working groups to develop decimal-based assessment concepts and systems on BEvolution that can deal effectively and efficiently with BEvolutionary ‘change’ (see also page 1).</p> <p>Names of working groups:</p> <ol style="list-style-type: none"> 1) SEENergy Group 2) SOCIAL Group 3) ECOTECHNICAL Group 4) ENVIROTIVE Group 5) NORMATIVE Group 	<p>Societally, we already use decimal-based concepts and systems. They contribute significantly to the globalisation of people’s undertakings. The decimal numbering concept/system (0, 1, 2, 3, 4, 5, 6, 7, 8, 9) and the Dewy Decimal Classification concept/system used in libraries are two practical examples. They are well known by individuals locally and worldwide. In order to become widely accepted and understood BEvolutionary visions and realisations need to be presented to the public conceptually and systematically. My recommendation is to use a concept/system that is understood and well known globally. Ten main classes, ten subclasses for each main class, and finally ten sub-subclasses for each subclass, ie. a 1,000 item’s framework. Should scientific and technical facts recommend another number-based framework, eg. 20,..., that is fine for me, too. The important notion of my writing is for a globally standardised concept and system. Community input is an essential element of BEvolution. Hence, clear and easy understandable concepts and systems are needed urgently. See also diagrams and Universal Decimal Classification (UDC) file! What concepts and systems do I miss especially?</p> <p>I miss a decimal-based law system with a limit of 1,000 acts. Legislative BEvolution takes place within this limit. This means I do not want to see more than 1,000 acts legislating commitment. Additionally, law hierarchy diagrams can easily be put on paper in order to comprehend the legislative interrelationships in the mind and from paper.</p> <p>I also miss a decimal-based tax system with a limit of 100 items. Budgetary BEvolution takes place within this limit. For example, the contribution of each tax item to the total budget can be demonstrated in a table, and the BEvolutionary ‘changes’ of a tax item can be presented over time easily. Community consultation is made possible conceptually and systematically.</p>

The Partnerships for Action program must allow for engaging and BEvolutionary public input in a transparent manner.</p> <p>See also Draft Goal 1.2.</p> <p>See also Diagrams.</p> <p>See also notes on Universal Decimal Classification (UDC).</p>

Quantum:	3.3 Dialogship for Actionship			
Log Number:		Version Number:	2003w10	Draft Document Page: 51 to 54
<i>MY GOAL</i>	<i>COMMENTS</i>			
<p>Modify as shown below:</p> <p>... Involve the WA Collaboration in the roundtables as well as other community groups, industry and research interests.</p>	<p>For example, Regional Waste Management Councils must be created on a geographical and not on a political basis.</p> <p>The Town of Victoria Park is located south of the river. Why is the Town of Victoria Park a member of the MRC (Mindarie Regional Council) and not the SMRC (Southern Metropolitan Regional Council)? The SMRC has a Resource Recovery Facility (RRF) in Canning Vale, City of Canning. The same can be said for the City of South Perth SEMRC (South Eastern Metropolitan Regional Council). It makes no sense to shift waste all over the Metropolitan area when there is no need for such actions! It is common sense that regional waste management councils have to be organised geographically and not politically, or those used whatever criteria responsible for such a foolish act. It is a confirmation that governance is the set of {Discrimination, Leadership, Nepotism, Patronage}. What do we need really? Really needed are wisely societies with the set of {Dialogship, Unionship, Actionship, Lifeship}. Societal administrators want people to live sustainably avoiding the waste of natural resources but on the other hand, they set up concepts and systems that use resources, cause pollution, and traffic jams unnecessarily!</p> <p>See also especially Diagram 34</p>			

Quantum:	3.3 Dialogship for Actionship

3 BEvolution and Wisdomly Societies

Quantum:	3.8 BEvolution Online Information			
Log Number:		Version Number:	2003w10	Draft Document Page: 70 to 72

<i>MY GOAL</i>	<i>COMMENTS</i>
<p>Work to establish BEvolution Online to deliver the election commitment to establish a 'one-stop-shop' for BEvolutionary information. BEvolution Online will be accessible to the public through the Internet and will list and integrate social, ecotechnical, envirotive and normative data from a range of sources including community data collected by local groups, schools and universities.</p>	<p>Suggested Internet address names: "www.SEENergy.wa.gov.au" or "www.BEvolution.wa.gov.au"</p> <p>Sustainability BEvolution Enhances Enhances Everybody Everybody Neatly Neatly</p> <p>Some of the contents I would like to find on the SEENergy or BEvolution website:</p> <ol style="list-style-type: none"> 1. How many are born daily? (total, female, male, regions) 2. How many die daily? (total, female, male, age, cause of death, occupation, regions) 3. Inhabitants of Western Australia (total, female, male, age, regions) 4. Air pollution information (regions) 5. Energy consumed daily [kWh or MWh] (total, regions) 6. Water power installed [kW or MW] 7. Wind power installed [kW or MW] 8. Solar cell power installed [kW or MW] 9. Grid-connected solar cell power installed [kW or MW] 10. Solar collector power installed [kW or MW] 11. Water tank capacity installed [ML or GL] 12. Water consumed daily [ML], etc.

3 BEvolution and Wisdomy Societies

Quantum:	3.9 BEvolution Awards			
Log Number:		Version Number:	2003w10	Draft Document Page: 73

<i>MY GOAL</i>	<i>COMMENTS</i>
Initiate an Annual BEvolution Award to recognise significant achievement BEvoluting societal concepts and systems.	Broadcast Award ceremony on TV Channel 31.

4 BEvolution and United Nations

Quantum:	4.0 Development Aid, Envirotive Technology and Population				
Log Number:		Version Number:	2003w10	Draft Document Page:	74 to 79

<i>MY GOAL</i>	<i>COMMENTS</i>
Establish a <i>Global Centre for BEvolution</i> combining expertise from universities, TAFE, schools, the CSIRO, government and industry to undertake major international partnership projects on the interrelated BEvolution issues of greenhouse gas emissions, human rights, individualistic and organisational engagement, land and energy use, BEvolution procurement and development aid, and waste recycling.	<p>See also chapter 2, page 1!</p> <p>To this very space-time moment in human cooperation, the BEvolutionary globalisation of thought and voice, that is what I regard as the wavy duality of human existence, or mindship, has been mastered reasonably well by researchers and scientists through the invention of communication and information technologies. They allow us to be present via electronic voice and picture all over the planet Earth almost instantly, and to do electronic research in data and information bases.</p> <p>The materialistic, or physical, aspect of the existing human duality, that is what I regard as the particle duality of human existence, or bodyship, still considerably limits our intentions and needs to intensify the movement of goods, people, and services on the planet Earth and in the cosmos. The realisation of a BEvolving global and cosmotic society that is socially viable, ecotechnically sound, environmentally responsible, and normatively fair still depicts an unfulfilled realisation and vision in our individualistic existence, and hence in society.</p> <p>Thinking and translating objectives and goals into wisely processes and actions must be the commitment and vision. By working together on BEvolutionary realisations and visions all of us can contribute to a wisely society, that is one that values a healthy environment and innovates BEvolution equitably and fairly.</p>

Quantum:	4.0 Development Aid, Envirotive Technology and Population			
Log Number:		Version Number:	2003w10	Draft Document Page: 74 to 79
<i>MY GOAL</i>	<i>COMMENTS</i>			
Assist businesses and non-for-profit organisations appropriately in order to win, or participate in, projects in developing countries.	<p>Every_body is a quantum of space-time on Earth. Every_body should comprehend or understand, that globalisation is here to stay as long as the close-by cosmos upholds its present functional equilibrium, and individuals and organisations preserve life to death.</p> <p>Wisdomly societies are required on Earth. Such societies only BEvolve equitably, fairly. BEvolving the cells of society, namely communities, SEENergetically is today and will be tomorrow the work of all individuals in a world of omnipresent cosmos BEvolution.</p>			

Quantum:		4.0 Development Aid, Envirotive Technology and Population																					
Log Number:		Version Number:	2003w10	Draft Document Page:	74 to 79																		
<i>MY GOAL</i>		<i>COMMENTS</i>																					
Promote Western Australian environmental products, services and technologies in global trade through an annual "McSustain Expo" in Perth.		The "McSustain Expo" will be a biomass and non-biomass products and services expo tailored to suit BEvolution on the one hand, and research and science environmental technologies on the other hand. The number of products and services of all sorts increases daily. Hence, it makes sense to advance mindship intensively in the direction of "priority thinking", ie. how to advance the competitive market conditions within the State in order to achieve the optimal SEENergetic product and service mix reflecting a wisely society. Mass production of products and services demands an answer to the following "resource use" question: Which products and services shall be produced in mass, and which ones only in a medium to small quantity? ⇒ Priority Product and Service Spheres. See also <table><tr><td>Diagram 15</td><td>Diagram 16</td><td>Diagram 17</td></tr><tr><td>Diagram 18</td><td>Diagram 19</td><td>Diagram 21</td></tr><tr><td>Diagram 22</td><td>Diagram 23</td><td>Diagram 28</td></tr><tr><td>Diagram 29</td><td>Diagram 30</td><td>Diagram 31</td></tr><tr><td>Diagram 32</td><td>Diagram 33</td><td>Diagram 34</td></tr><tr><td>Diagram 35</td><td></td><td></td></tr></table>				Diagram 15	Diagram 16	Diagram 17	Diagram 18	Diagram 19	Diagram 21	Diagram 22	Diagram 23	Diagram 28	Diagram 29	Diagram 30	Diagram 31	Diagram 32	Diagram 33	Diagram 34	Diagram 35

Quantum:	4.0 Development Aid, Envirotive Technology and Population				
Log Number:		Version Number:	2003w10	Draft Document Page:	74 to 79

<i>MY GOAL</i>	<i>COMMENTS</i>
Facilitate R&D in environmental technology through the support of five SEENergy Research Centres in Envirotive Excellence. Establish them progressively over the next five years.	

Quantum:	4.0 Development Aid, Envirotive Technology and Population				
Log Number:		Version Number:	2003w10	Draft Document Page:	74 to 79

<i>MY GOAL</i>	<i>COMMENTS</i>
Conduct a study on the relationship between <input checked="" type="checkbox"/> Consumption, <input checked="" type="checkbox"/> Income, <input checked="" type="checkbox"/> Land Ownership, <input checked="" type="checkbox"/> Land Use, <input checked="" type="checkbox"/> Population and <input checked="" type="checkbox"/> Transport in Western Australia by the end of 2004.	For example: ⇒ Consumption in relation to Income ⇒ Consumption in relation to Land Ownership ⇒ Consumption in relation to Land Use ⇒ Land Ownership in relation to Population ⇒ Income in relation to Transport ⇒ Land Ownership in relation to Income ⇒ Land Ownership in relation to Land Use Et cetera.

4 BEvolution and United Nations

Quantum:	4.1 Maintaining, Preserving and Servicing Biodiversity			
Log Number:		Version Number:	2003w10	Draft Document Page: 80 to 85

<i>MY GOAL</i>	<i>COMMENTS</i>
Establish a long-term monitoring and reporting program to demonstrate that the State is fulfilling its global biodiversity conservation obligations by the end of 2003.	A very important goal.

Quantum:	4.1 Maintaining, Preserving and Servicing Biodiversity			
Log Number:		Version Number:	2003w10	Draft Document Page: 80 to 85
<i>MY GOAL</i>	<i>COMMENTS</i>			
Introduce a new Biodiversity Conservation Act for Western Australia supported by a Biodiversity Conservation Notion that builds on the 30 new National Parks, assesses the need for new reserves, supports the linking of major reserves with areas of privately owned bush, supports vegetation regeneration, helps to meet Australia's international obligations for biodiversity protection, and maintains a healthy environment.	Action an information session about the Biodiversity Conservation Act Consultation Paper that has been released for public comment until 5 March 2003.			

Quantum:	4.1 Maintaining, Preserving and Servicing Biodiversity				
Log Number:		Version Number:	2003w10	Draft Document Page:	80 to 85
MY GOAL		COMMENTS			
Nominate the Cape Range-Ningaloo area for inscription on the World Heritage List in recognition of its BEvolutionary realisations in 2003.					

Quantum:	4.1 Maintaining, Preserving and Servicing Biodiversity				
Log Number:		Version Number:	2003w10	Draft Document Page:	80 to 85

<i>MY GOAL</i>	<i>COMMENTS</i>
Facilitate nature-based recreation and tourism and Western Australia's <i>'sense of place and wealth'</i> including through the marketing of the state's special biodiversity status progressively.	The Earth itself is 'sense of place' but fauna, flora and humans only live in certain places on Earth because they experience and 'think' that these places offer something else which I call "wealth". "Wealth" means air, water, food, income, relationship, 'safety', ..., that is they offer a sustainable realisation and vision of BEvolution.

Quantum:	4.1 Maintaining, Preserving and Servicing Biodiversity			
Log Number:		Version Number:	2003w10	Draft Document Page: 80 to 85

<i>MY GOAL</i>	<i>COMMENTS</i>
Establish a vision and a realisation for a SEENergetic Biodiversity Research Centre in order to improve opportunities for Biodiversity SEENergy in the State. Biodiversity conservation research programs within the partner organisations will receive strong support for the next ten (10) years. Review their actionship and dialogship annually.	<div>Social</div> <div>Economic</div> <div>Environmental</div> <div>Nature</div> <div>Dialogship</div> <div>Lifeship</div> <div>Actionship</div> <div>Unionship</div>

Quantum:	4.1 Maintaining, Preserving and Servicing Biodiversity			
Log Number:		Version Number:	2003w10	Draft Document Page: 80 to 85

<i>MY GOAL</i>	<i>COMMENTS</i>
<p>Plan and build a major science-education facility that can assist in the education of the community on Western Australia’s biodiversity and its foundation in geodiversity (Biosphere West Project) by the end of 2005.</p>	<p>Electron Microscope Cinema with BEvolutionary Energy Research Focus:</p> <p>In order to BEvolve innovatively, individuals will need to investigate and research the microcosmic systems, ie. their processes and actions, extensively in a cooperative manner. According to scientists, the energy-driven BEvolution in the cosmos has already had billions of years for inorganic matter, ie. dullmass, and millions of years for organic matter, ie. biomass, to arrange stunning energy-driven structures, or “he engines”.</p> <p>Businesses, consumers, and societal administrators will have to invest into products and services that explain and explore the little world, or microcosm, if they want to speed up the BEvolution in the inorganic and organic structures towards a more wished result. Earthly BEvolution has come up with the human brain. The systematic structure is laid for accelerated physical and spiritual BEvolution of humans, and hence in the cosmos. It is up to the individualistic mind and to the organisational and societal administrators to grasp the challenging but fruitful and joyful opportunity.</p>

Quantum:	4.1 Maintaining, Preserving and Servicing Biodiversity			
Log Number:		Version Number:	2003w10	Draft Document Page:
				80 to 85

<i>MY GOAL</i>	<i>COMMENTS</i>
Create a Bioprospecting Vision and Realisation for ensuring native-plant-based industries are developed BEvolutionary and with income opportunities for the State by the end of 2005.	

Quantum:	4.1 Maintaining, Preserving and Servicing Biodiversity				
Log Number:		Version Number:	2003w10	Draft Document Page:	80 to 85

<i>MY GOAL</i>	<i>COMMENTS</i>
Complete the Biological Survey of Western Australia by 2015 to 2020.	

Quantum:	4.1 Maintaining, Preserving and Servicing Biodiversity			
Log Number:		Version Number:	2003w10	Draft Document Page:
				80 to 85

<i>MY GOAL</i>	<i>COMMENTS</i>
Continue to support the national program to manage marine pest incursions into Western Australia, and limit the spread of existing pests by developing and using environmentally friendly methods and techniques.	

4 BEvolution and United Nations

Quantum:	4.2 Climate Change and Greenhouse Gas Responses			
Log Number:		Version Number:	2003w10	Draft Document Page: 86 to 88

<i>MY GOAL</i>	<i>COMMENTS</i>
Establish an obligatory program of Greenhouse Offsets to force large development projects to reduce greenhouse gas emissions by investing in carbon sequestration, energy efficiency, renewable energy, or other accredited projects in Western Australia by the end of 2003.	A very important goal.

Quantum:	4.2 Climate Change and Greenhouse Gas Responses			
Log Number:		Version Number:	2003w10	Draft Document Page: 86 to 88
<i>MY GOAL</i>	<i>COMMENTS</i>			
Continue to require companies involved in major projects (BEvolution criteria) assessed by the Environmental Protection Authority, to minimise and report on greenhouse gas emissions every six months on the Internet.	Provide a list of projects that fall into this category and the companies' Internet addresses on the BEvolution information online website.			

Quantum:	4.2 Climate Change and Greenhouse Gas Responses				
Log Number:		Version Number:	2003w10	Draft Document Page:	86 to 88
MY GOAL		COMMENTS			
As stated in Draft Goal.		What is the factual name of the new carbon rights legislation?			

Quantum:	4.2 Climate Change and Greenhouse Gas Responses				
Log Number:		Version Number:	2003w10	Draft Document Page:	86 to 88

<i>MY GOAL</i>	<i>COMMENTS</i>
Investigate the potential for reducing greenhouse gas emissions for the government, public vehicles and the electric train system, and report to the public by the end of 2003.	Tax incentives for fuel-emission-free vehicles, eg. 6 months GST-free shopping.

Quantum:	4.2 Climate Change and Greenhouse Gas Responses			
Log Number:		Version Number:	2003w10	Draft Document Page: 86 to 88

<i>MY GOAL</i>	<i>COMMENTS</i>
Maintain the commitment to ensuring that greenhouse gas emissions are a significant factor in power decisions, and legislate this commitment within two years, that is by the end of 2005.	The number of products and services of all sorts increases daily. It makes sense advance actionship and dialogship intensively in the direction of “priority realisation and visions”, ie. how to BEvolve the competitive market conditions within the state unionship system, ie. culture, lawship, standards, etc., in order to achieve the optimal product and service mix demanded in a wisdomly society, or SEENergetic society. Priority realisations and visions demand a societal action matrix that considers which products and services shall be produced in mass, and which ones only in a medium or small quantity in a given time. Actions, and consequently systems, can 'change', BEvolve, when science and technology have advanced products and services to a level that only strains the environment sustainably.

Quantum:	4.2 Climate Change and Greenhouse Gas Responses			
Log Number:		Version Number:	2003w10	Draft Document Page: 86 to 88

<i>MY GOAL</i>	<i>COMMENTS</i>
Provide visions and realisations in the electricity market that encourage distributed generation and renewable energy by the end of 2006. These visions and realisations could include providing incentives to reduce line losses and providing priority dispatch for renewable energy in any trading market.	Allow for local renewable energy generating infrastructures that are also capable delivering excess renewable energy to a limited-extended public electricity a thermal grid. Eg., all houses in a road, several roads, in a ward, et cetera. In t suburbs, land zoning needs to be adapted.

Quantum:	4.2 Climate Change and Greenhouse Gas Responses			
Log Number:		Version Number:	2003w10	Draft Document Page: 86 to 88

<i>MY GOAL</i>	<i>COMMENTS</i>
Establish an Adaptation Vision for Climate Change with relevant governmental agencies and public input by the end of 2005.	

Quantum:	4.2 Climate Change and Greenhouse Gas Responses			
Log Number:		Version Number:	2003w10	Draft Document Page: 86 to 88

MY GOAL	COMMENTS
Establish a decimal-based carbon accounting system nationally and internationally to enable better understanding of greenhouse gas emissions globally and locally across government and by the public, and evaluate the potential of various visionary options by the end of 2005.	<div>See also</div> <div><div>Diagram 10</div><div>Diagram 11</div><div>Diagram 12</div><div>Diagram 21</div><div>Diagram 22</div><div>Diagram 23</div></div> <div>See also notes on Universal Decimal Classification (UDC).</div>

Quantum:	4.2 Climate Change and Greenhouse Gas Responses			
Log Number:		Version Number:	2003w10	Draft Document Page: 86 to 88

<i>MY GOAL</i>	<i>COMMENTS</i>
Establish greenhouse gas emissions accreditation for carbon accounting by the end of 2006.	<p>See also</p> <p>Diagram 10 Diagram 11 Diagram 12 Diagram 21 Diagram 22 Diagram 23</p> <p>See also notes on Universal Decimal Classification (UDC).</p>

4 BEvolution and United Nations

Quantum:	4.3 Gas Transition, the Hydrogen Future and Oil Vulnerability			
Log Number:		Version Number:	2003w10	Draft Document Page: 89 to 91

<i>MY GOAL</i>	<i>COMMENTS</i>
<p>Members of the Ecotechnical Assessment Unit progressively examine short, medium and long-term issues to do with the gas transition, the hydrogen future and oil vulnerability, especially relating to land use and transport, and report on the BEvolution information online website every six months about their progress.</p>	<p>See also diagrams 00, 01, 15, 16, 17, 18, 19.</p> <p>Additional Goals of mine for chapter 4:</p> <ul style="list-style-type: none"> ☑ Establish a Global Centre for Science & Technology Education combining expertise from universities, TAFE, schools, the CSIRO, government and industry to undertake major international projects on the interrelated issues of scientific research, advanced integrated manufacturing (AIM) and eduSURE concepts and systems. eduSURE means skills Supply, skills Usage, skills Review and skills Enhancement. ☑ Establish a Global Centre for Space Research & Technology combining expertise from universities, TAFE, schools, the CSIRO, government and industry to undertake major international partnership projects on the interrelated issue of how societies can BEvolve without the Earth. It means societies accept and tackle the cosmotic challenge of aeonic 'change' or BEvolution in space-time. ☑ Establish a Global Radio Channel & TV Channel that transmit and broadcast 24 hours a day national news from every nation on a rotational principle in the English language to every nation on the Earth in cooperation with the United Nations. I suggest a news service that allows to broadcast the news from all nations on the planet by radio and TV over five days, ie. 73 times a year. This is globalisation at work. See also diagram 35.

?	Please, explain the EMU plus process.

5 BEvolution and Dullmasses

Quantum:	5.1 BEvolving Aquaculture and Fisheries			
Log Number:		Version Number:	2003w10	Draft Document Page: 103 to 107

<i>MY GOAL</i>	<i>COMMENTS</i>
Vision social and ecotechnical objectives of BEvolution to integrate with envirotive assessments completed on all Western Australian fisheries by the end of 2005.	See also Diagram 00 Diagram 01 Diagram 33 Diagram 34.

Quantum:	5.1 BEvolving Aquaculture and Fisheries			
Log Number:		Version Number:	2003w10	Draft Document Page: 103 to 107
<i>MY GOAL</i>	<i>COMMENTS</i>			
As stated in Draft Goal, but add ... within a bioregional framework that also includes community input. ... by the end of 2006.	A very important ecological system and natural resource.			

Quantum:	5.1 BEvolving Aquaculture and Fisheries				
Log Number:		Version Number:	2003w10	Draft Document Page:	103 to 107
MY GOAL		COMMENTS			
Vision a long-term Inland Fish and Aquatic Ecosystem Concept to rehabilitate freshwater ecosystems of the South West to maintain and preserve the biodiversity of the freshwater fish stocks by the end of 2005.					

Quantum:	5.1 BEvolving Aquaculture and Fisheries				
Log Number:		Version Number:	2003w10	Draft Document Page:	103 to 107

<i>MY GOAL</i>	<i>COMMENTS</i>
?	Please, explain what the Wilson Report recommends.

Quantum:	5.1 BEvolving Aquaculture and Fisheries			
Log Number:		Version Number:	2003w10	Draft Document Page: 103 to 107

<i>MY GOAL</i>	<i>COMMENTS</i>
Continue to vision and realise fish habitat protection areas to complement the marine park and reserve system progressively.	See also page 4.

Quantum:	5.1 BEvolving Aquaculture and Fisheries			
Log Number:		Version Number:	2003w10	Draft Document Page: 103 to 107

<i>MY GOAL</i>	<i>COMMENTS</i>
Vision and realise regional recreational fisheries concepts and systems by 2005, and enhance and review them progressively.	

Quantum:	5.1 BEvolving Aquaculture and Fisheries				
Log Number:		Version Number:	2003w10	Draft Document Page:	103 to 107

<i>MY GOAL</i>	<i>COMMENTS</i>
As stated in Draft Goal.	Where is the new fisheries research institute located?

5 BEvolution and Dullmasses

Quantum:	5.2 BEvolving Forestry and Plantations			
Log Number:		Version Number:	2003w10	Draft Document Page: 108 to 110

<i>MY GOAL</i>	<i>COMMENTS</i>
I oppose all industrial logging activities for a period of 100 years.	If I were the responsible minister, industrial logging would be stopped completely the South-West. I would not allow industrial logging to take place before 210. Sixty per cent (60%) of ex-native forest land would have to be revegetated by 20 with native and plantation trees.

Quantum:	5.2 BEvolving Forestry and Plantations				
Log Number:		Version Number:	2003w10	Draft Document Page:	108 to 110
MY GOAL		COMMENTS			
I oppose all industrial logging activities for a period of 100 years.		See also page 1. See also Diagram 24 Diagram 25 Diagram 26 Diagram 27 Diagram 28 Diagram 29 Diagram 30 Diagram 33 Diagram 34.			

Quantum:	5.2 BEvolving Forestry and Plantations			
Log Number:		Version Number:	2003w10	Draft Document Page: 108 to 110
MY GOAL		COMMENTS		
I vote for a revegetation program of native and plantation trees on cleared ex-native forest land, and an industrial logging stop until 2100.		<p>There is enough logged wood around in order for humans to exist luxuriously for the next 100 years in Western Australia. A quintuple bottom-line, see also diagram 1, means that the ecotechnical bottom-line is not always number one and the other four bottom-lines can only be secondary at the best. Omnipresent cosmotic change and societal 'stupidity' demand daily determination of the appropriate bottom-line sequence. It is the like with the genetic code of biomass. The actual sequence of the genetic code changes from body to body reflecting the omnipresent cosmotic changes, or BEvolution, which are sometimes hardly, or not at all, noticeable for humans in the human cosmos.</p> <p>By the way Professor Newman, you should let the president of the World Business Council know about this fact, because he is one of these time-wasters in society that talks about BEvolution, or advanced sustainability, but has no understanding about the multi bottom-line reality and hence the consequences for wisely decision-making. For me, he is a societal personification of an 'old-fashioned ecotechnical drug addict'. I stop with my remarks about the business workshop on 'sustainability' at this point. My opinion is that the cosmos and Earth will do the convincing and fact-based argumentation for me anyway.</p> <p>If the present WA government is serious about realising a <i>multi bottom-line vision and realisation</i>, then it shall never forget, or overlook, the simple fact above.</p>		

Quantum:	5.2 BEvolving Forestry and Plantations			
Log Number:		Version Number:	2003w10	Draft Document Page: 108 to 110

<i>MY GOAL</i>	<i>COMMENTS</i>
Do not consult with the community over the final boundaries on the 30 new National Parks in old growth forests. Instead of make the total area of these 30 parks significantly larger, ie. at least double it, and confiscate land if necessary for this purpose.	See also comments on page 1.

Quantum:	5.2 BEvolving Forestry and Plantations				
Log Number:		Version Number:	2003w10	Draft Document Page:	108 to 110

<i>MY GOAL</i>	<i>COMMENTS</i>
Vision an industrial sandalwood concept that is consistent with principles of Ecologically Sustainable Forest Management and is available from 2100 onwards.	See also page 1 and 2.

Quantum:	5.2 BEvolving Forestry and Plantations				
Log Number:		Version Number:	2003w10	Draft Document Page:	108 to 110

<i>MY GOAL</i>	<i>COMMENTS</i>
Seek to minimise the loss of natural values from forests and timber reserves and all other reserve categories within the state as a consequence of the extraction of low value bulk commodities such as sand and gravel continually.	See also Diagram 33 Diagram 34.

Quantum:	5.2 BEvolving Forestry and Plantations			
Log Number:		Version Number:	2003w10	Draft Document Page: 108 to 110

Quantum:	5.2 BEvolving Forestry and Plantations			
Log Number:		Version Number:	2003w10	Draft Document Page: 108 to 110

<i>MY GOAL</i>	<i>COMMENTS</i>
See page 1.	<p>We need more urgently researchers and scientists that contribute to the ultimate human vision, ie. BEvolution without Earth.</p> <p>See also</p> <p>Diagram 40.</p>

Quantum:	5.2 BEvolving Forestry and Plantations			
Log Number:		Version Number:	2003w10	Draft Document Page: 108 to 110

<i>MY GOAL</i>	<i>COMMENTS</i>
See page 1 and 2.	

5 BEvolution and Dullmasses

Quantum:	5.3 BEvolving Mining and Petroleum Production			
Log Number:		Version Number:	2003w10	Draft Document Page: 111 to 114

<i>MY GOAL</i>	<i>COMMENTS</i>
Vision and realise BEvolutionary assessment of state significant projects using BEvolution criteria by the end of 2004.	Where is information available about the Keating Review?

Quantum:	5.3 BEvolving Mining and Petroleum Production			
Log Number:		Version Number:	2003w10	Draft Document Page: 111 to 114
<i>MY GOAL</i>	<i>COMMENTS</i>			
With stakeholders, vision and realise a set of BEvolutionary concepts and systems for the Mining Sector by the end of 2005.	Where is information available about the Global Mining Initiative?			

Quantum:	5.3 BEvolving Mining and Petroleum Production			
Log Number:		Version Number:	2003w10	Draft Document Page: 111 to 114
<i>MY GOAL</i>		<i>COMMENTS</i>		
BEvolutionary assessment fosters local community involvement throughout the whole process.		See also Diagram 17 Diagram 18.		

Quantum:	5.3 BEvolving Mining and Petroleum Production			
Log Number:		Version Number:	2003w10	Draft Document Page: 111 to 114

<i>MY GOAL</i>	<i>COMMENTS</i>
Vision and realise transparent concepts and systems to enable community awareness of the regulatory system for mining and mineral processing, and inform the public via television by the end of 2003.	Circa 50 minutes documentary.

Quantum:	5.3 BEvolving Mining and Petroleum Production			
Log Number:		Version Number:	2003w10	Draft Document Page: 111 to 114

<i>MY GOAL</i>	<i>COMMENTS</i>
Immediately begin visioning with the community and industry on the development of obligatory accreditation for mining.	See also Diagram 33 Diagram 34.

Quantum:	5.3 BEvolving Mining and Petroleum Production			
Log Number:		Version Number:	2003w10	Draft Document Page: 111 to 114

<i>MY GOAL</i>	<i>COMMENTS</i>
Provide financial support for the <i>Cooperative Research Centre in Sustainable Minerals Processing</i> as well as the <i>Cooperative Research Centre in Sustainable Mine Lakes</i> and the <i>Cooperative Research Centre in Greenhouse Gas Technologies</i> for the next 10 years. Review their actionship and dialogship annually and enhance their functions if necessary.	<p>Cooperative Research Centre in Sustainable Minerals Processing Cooperative Research Centre in Sustainable Mine Lakes Cooperative Research Centre in Greenhouse Gas Technologies</p> <p>Provide links on the website to these research centres.</p> <p>See also</p> <p>Diagram 33 Diagram 34.</p>

5 BEvolution and Dullmasses

Quantum:	5.4 BEvolving Tourism			
Log Number:		Version Number:	2003w10	Draft Document Page: 115 to 117

<i>MY GOAL</i>	<i>COMMENTS</i>
<p>Facilitate nature-based recreation and tourism and market Western Australia’s ‘sense of place and wealth’. Draw the tourist’s attention to the state’s special biodiversity status and available cross-state walk trails.</p>	<p>See also</p> <p>Diagram 17 Diagram 18 Diagram 33.</p>

Quantum:	5.4 BEvolving Tourism			
Log Number:		Version Number:	2003w10	Draft Document Page: 115 to 117
<i>MY GOAL</i>	<i>COMMENTS</i>			
<p>Vision and realise tourism opportunities to integrate social aspects of BEvolution. Eg., Arts events, cultural and history experiences, indigenous walking tours as well as ‘sense of place and wealth’ markers.</p>	<p>See also</p> <p>Diagram 17 Diagram 18.</p>			

Quantum:	5.4 BEvolving Tourism				
Log Number:		Version Number:	2003w10	Draft Document Page:	115 to 117
MY GOAL		COMMENTS			
?		Where is information available about the existing sustainable tourism accreditation Western Australia?			

Quantum:	5.4 BEvolving Tourism				
Log Number:		Version Number:	2003w10	Draft Document Page:	115 to 117

<i>MY GOAL</i>	<i>COMMENTS</i>
?	Please, explain.

5 BEvolution and Dullmasses

Quantum:	5.5 Protecting Aquatic Systems			
Log Number:		Version Number:	2003w10	Draft Document Page: 118 to 121

<i>MY GOAL</i>	<i>COMMENTS</i>
Maintain, preserve and protect water dependent ecosystems while allowing for the BEvolutionary use of these resources.	<p>'BEvolutionary Use' is for me sustainable demand minus 20 per cent over a year.</p> <p>My definition of ‘BEvolutionary Use’ written mathematically:</p> $\text{BEvolutionary Use (BEU) per year} = \text{Sustainable demand (SD)} - 20\%$ <p>Time period: One year!</p>

Quantum:	5.5 Protecting Aquatic Systems			
Log Number:		Version Number:	2003w10	Draft Document Page: 118 to 121
<i>MY GOAL</i>	<i>COMMENTS</i>			
Always ensure that multi-bottom-line visions and realisations for aquatic systems are used, and the impacts of use are taken into account during the BEvolution assessment.	<p>Visions are expressed in concepts, ie. in the form of objectives and goals, and realisations are the systems, ie. the processes and actions, that eventuate from concepts and impact on the aquatic systems.</p> <p>See also</p> <p>Diagram 07 Diagram 09 Diagram 13 Diagram 14.</p>			

Quantum:	5.5 Protecting Aquatic Systems			
Log Number:		Version Number:	2003w10	Draft Document Page: 118 to 121
MY GOAL		COMMENTS		
Identify by the end of 2005 the envirotive objectives and designate qualitative and quantitative goals for all of the state's aquatic systems and embed these within Environmental Protection Systems.		<p>How many aquatic systems have been counted and named in the state?</p> <p>All “waterways” must be publicly owned, and be accessible for every resident Western Australia. Define the term "waterways". Water is extremely important for every being because water serves basic physiological needs like hunger and thirst. Waterways MUST BE BEvolved wisely! And please, no buts about it!</p>		

Quantum:	5.5 Protecting Aquatic Systems			
Log Number:		Version Number:	2003w10	Draft Document Page: 118 to 121

<i>MY GOAL</i>	<i>COMMENTS</i>
<p>Increase the scientific understanding of aquatic systems by providing extra funds of AUD \$ 1,000,000 annually over the next 10 years to derive enviroative quality and quantity goals for the state’s aquatic systems to act as benchmarks to assess where the objectives are met, or not met, and actions are required. Review the results annually, and enhance them if necessary.</p>	

Quantum:	5.5 Protecting Aquatic Systems				
Log Number:		Version Number:	2003w10	Draft Document Page:	118 to 121

<i>MY GOAL</i>	<i>COMMENTS</i>
<p>Guarantee that activities in catchments are carried out BEvolutionary to ensure that envirotive objectives of downstream environments are not compromised, degraded, or destroyed.</p>	

Quantum:	5.5 Protecting Aquatic Systems				
Log Number:		Version Number:	2003w10	Draft Document Page:	118 to 121

<i>MY GOAL</i>	<i>COMMENTS</i>
Continue the work of the State Wetlands Coordinating Committee in ensuring the State Wetlands Conservation Concept is implemented by the end of 2006.	Does the State Wetlands Conservation Concept comprise objectives and goals that also allow for sufficient aerial buffers around the wetlands.

Quantum:	5.5 Protecting Aquatic Systems			
Log Number:		Version Number:	2003w10	Draft Document Page: 118 to 121

<i>MY GOAL</i>	<i>COMMENTS</i>
Continue the work of nominating significant wetlands for inclusion on the Ramsar Convention list of Wetlands of International, and Local, Importance progressively.	Where is information available about the Ramsar Convention list of Wetlands?

Quantum:	5.5 Protecting Aquatic Systems			
Log Number:		Version Number:	2003w10	Draft Document Page: 118 to 121

<i>MY GOAL</i>	<i>COMMENTS</i>
<p>Vision concepts and realise systems in partnership with the community for the safeguarding of our wild and scenic rivers, and legislate the protection of these unique river systems by the end of 2010, ie. unionship their protection.</p>	

Quantum:	5.5 Protecting Aquatic Systems				
Log Number:		Version Number:	2003w10	Draft Document Page:	118 to 121

<i>MY GOAL</i>	<i>COMMENTS</i>
?	Please, explain.

5 BEvolution and Dullmasses

Quantum:	5.6 BEvolutionary Coastal and Marine Environments			
Log Number:		Version Number:	2003w10	Draft Document Page: 122 to 126

<i>MY GOAL</i>	<i>COMMENTS</i>
Identify the envirotive objectives and designate quality and quantity goals for all of the state’s ecological marine systems by the end of 2008.	

Quantum:	5.6 BEvolutionary Coastal and Marine Environments			
Log Number:		Version Number:	2003w10	Draft Document Page: 122 to 126
<i>MY GOAL</i>	<i>COMMENTS</i>			
Obtain the scientific understanding to derive envirotive quality and quantity goals for all of the state’s ecological marine systems to act as benchmarks to assess where the objectives are met, or not met, and actions are required.				

Quantum:	5.6 BEvolutionary Coastal and Marine Environments				
Log Number:		Version Number:	2003w10	Draft Document Page:	122 to 126
MY GOAL		COMMENTS			
Promote and reinforce the objectives and processes of best BEvolution practice in coastal and marine utilisation, and continue improvement of existing goals and activities to ensure they are demonstrated in new projects.					

Quantum:	5.6 BEvolutionary Coastal and Marine Environments				
Log Number:		Version Number:	2003w10	Draft Document Page:	122 to 126

<i>MY GOAL</i>	<i>COMMENTS</i>
<p>Always assess and recognise the potential for cumulative impacts and SEENergetic effects of multiple activities in impact assessments of new projects, and in the utilisation of ongoing activities.</p>	<p>See also Diagram 33.</p>

Quantum:	5.6 BEvolutionary Coastal and Marine Environments				
Log Number:		Version Number:	2003w10	Draft Document Page:	122 to 126

<i>MY GOAL</i>	<i>COMMENTS</i>
?	Where is information available about the North West Shelf Joint Environment Management Study?

Quantum:	5.6 BEvolutionary Coastal and Marine Environments			
Log Number:		Version Number:	2003w10	Draft Document Page: 122 to 126

<i>MY GOAL</i>	<i>COMMENTS</i>
Vision a State Coastal Concept and a State Marine Concept with comprehensive community consultation and turn them into reality by the end of 2008.	See also Diagram 00 Diagram 01.

5 BEvolution and Dullmasses

Quantum:	5.7 BEvolving Rangelands			
Log Number:		Version Number:	2003w10	Draft Document Page: 127 to 129

<i>MY GOAL</i>	<i>COMMENTS</i>
Establish a Rangelands Working Group consisting altogether of ten community, government and industry members to work out a comprehensive vision for the rangelands and advise all stakeholders of the objectives requiring consideration in the daily decision-making processes.	

Quantum:	5.7 BEvolving Rangelands			
Log Number:		Version Number:	2003w10	Draft Document Page: 127 to 129
<i>MY GOAL</i>	<i>COMMENTS</i>			
Complete the review of pastoral lease boundaries in relation to envirotive biodiversity through a BEvolution Working Group and comprehensive state-wide community consultation by the end of 2005.				

Quantum:	5.7 BEvolving Rangelands			
Log Number:		Version Number:	2003w10	Draft Document Page: 127 to 129
MY GOAL		COMMENTS		
Review the arrangements for utilising non-allocated Crown land within the rangelands to ensure that future arrangements adequately recognise the biodiversity conservation objectives for those lands.		<p>How many square kilometres of non-allocated Crown land do exist within the Rangelands?</p> <p>Where is more information available about the Rangeland issues?</p>		

Quantum:	5.7 BEvolving Rangelands			
Log Number:		Version Number:	2003w10	Draft Document Page: 127 to 129

<i>MY GOAL</i>	<i>COMMENTS</i>
As stated in Draft Goal.	Provide information to the community state-wide about the Statement of Planning Policy on Sustainable Rangelands Management (Utilisation). It is a very important educational tool as it confronts the community with environmental conditions that demand extraordinary individualistic and organisational survival knowledge and skills.

Quantum:	5.7 BEvolving Rangelands			
Log Number:		Version Number:	2003w10	Draft Document Page: 127 to 129

<i>MY GOAL</i>	<i>COMMENTS</i>
Further develop the Envirotive Utilisation Systems currently being trialed within the Gascoyne-Murchison Regional Envirotive Utilisation Program to provide a vision for accreditation of BEvolutionary pastoralism in the Rangelands.	See also page 4.

Quantum:	5.7 BEvolving Rangelands			
Log Number:		Version Number:	2003w10	Draft Document Page: 127 to 129

MY GOAL	COMMENTS		
Provide funds of AUD \$ 2,500,000 over the next ten years to universities to do more research and teaching on rangeland BEvolution in recognition of its societal significance to the state. Review and enhance the universities actionship and dialogship annually.	EMU Plus program, what is it?

MY GOAL		COMMENTS		
As stated in Draft Goal.		<p>❑ The presentation of the air quality report in the ‘The West Australian’ newspaper needs to be improved significantly in order to be useful information for the community. What do these bars mean? What do they actually measure? What (are) the measuring unit(s)?</p> <p>❑ All the weather reports on the TV channels hardly ever talk about air quality! This is a shame! How can the community become more aware of the possible far-reaching consequences of its daily actions in relation to health when there is no daily confrontation with this essential issue in the media. The weather reports should be extended to about ten minutes in length and also cover understandable and useful air quality information on a daily basis. I wonder which TV channel discovers this market niche firstly.</p> <p>❑ Stop allowing people to use their wood heaters in winter as long as there is an emergency situation! (End of discussion!) Passive and active solar design always do the job. Make them aware of the fact that the money spent on the heater and the wood over the years easily allows them to buy top-quality warm winter clothing. By the way, what’s about having a walk in the evening for those that are physically fit? I am aware of the advantages of such an exercise.</p> <p>What is actually done by the Government to have a zero-emission vehicle fleet of 50% by 2008 in the Perth Metropolitan Region? Note that a shift to non-car modes of transport would need a quantum-leap-like BEvolution in individuals’ habits. Such a BEvolution only happens when the products and services sold are air quality friendly automatically.</p>

6 BEvolution and Settlements

Quantum:	6.5 BEvolving miniWASTE Society			
Log Number:		Version Number:	2003w10	Draft Document Page: 148 to 150

<i>MY GOAL</i>	<i>COMMENTS</i>
Continue work towards a miniWASTE society and recognise the efforts of those regional councils that are doing inspiring work for this vision and realisation.	<p>‘Towards Zero waste’ is an irrational vision. ‘miniWASTE’ is a realistic and sensible vision. Goal, or proposed action, for Metropolitan area: less than 5% of 2002 landfill in 2020.</p> <p>How have people been learning over time, ie. have been gaining knowledge and skills over time. It has mainly happened by actionship, that is by doing. Reflections on the actions happened and happen afterwards. We definitely still have a lot to learn. Even if you just visit a waste tip today, or just think of salinity,</p> <p>A vision ‘towards zero waste’ to landfill is not a realistic one for me. However, <i>miniWASTE society</i> is an achievable and realistic vision, ie. less than 5% of 2002 landfill will be diverted to landfill in the Metropolitan area in 2020.</p> <p>See also especially</p> <p>Diagram 33 Diagram 34.</p> <p>However, the other diagrams also BEvolve wisely the vision of a miniWASTE society. You are welcomed to have a look at them, too. You will only be able to understand BEvolution in its entirety if you take a look at all the diagrams.</p>

Quantum:	6.5 BEvolving miniWASTE Society			
Log Number:		Version Number:	2003w10	Draft Document Page: 148 to 150
<i>MY GOAL</i>	<i>COMMENTS</i>			
Demand increased engagement in sustainable waste management by local government and the Waste Management Board through the Local and State Government BEvolutionary Roundtables and community consultations.	<p>The Town of Victoria Park is located south of the river. Why is the Town of Victoria Park a member of the MRC (Mindarie Regional Council) and not the SMRC (Southern Metropolitan Regional Council)? The SMRC has a RRF in Canning Valley City of Canning (see also page 8, penultimate point of the Mindarie Regional Council’s RRF site selection report). It makes no sense to shift waste all over the Metropolitan area when there is no need for such actions! An equivalent situation prevails for the City of South Perth!</p> <p>It is 'common sense' that regional waste management councils have to be organised geographically and not politically, or whatever criteria were used. It is a confirmation that societal wisdom has been lacking in the minds of the societal administrators. They demand from the people daily to live sustainably but on the other hand they set up foolish concepts and systems that use resources excessively and pollute the environment unnecessarily!</p> <p>Additionally, there must be an end to the outdated philosophy that one Local Government can deposit its rubbish and waste in another Local Government area. It is about time that each Local Government accepts its own responsibility in relation to waste management. There shall be several RRF in each regional waste management council! Determining landfill sites shall be the responsibility of the State Government because it also runs the Department for Planning and Infrastructure, although I have little trust in the knowledge and skills of the DPI to manage urban growth effectively and efficiently.</p> <p>See diagram 06, 10, 15, 16, 17, 18, 19, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35.</p>

<i>MY GOAL</i>	<i>COMMENTS</i>
Introduce household marketing of water supply, water use, water recycling, and water education. Eg., bore water systems, grey water systems, rainwater tanks, etc.	<p>See also page 2.</p> <p>If a society wants to make sure that it has always enough clean and fresh drinking water at hand, it will have to become active and find ways how to ‘harvest’ rainwater all over the globe. It is not enough just to sit around and wait for the rains to happen locally.</p> <p>My vision is to build huge remote-controlled Zeppelins that travel the Earth, especially the oceans, and harvest the rainwater where it falls unused. The collected rainwater is then emptied into dams, or at other places of need. The advantage of mobile ‘rain harvesters’ is that they can go to where the rain falls, ie. they are not a static system like dams. When will humans start using the sky excessively? One thing I know for sure: there is no lack of energy for doing so!</p>

<i>MY GOAL</i>	<i>COMMENTS</i>			
?	<p>What are the recommendations of the draft Environment Education Strategy? Who can be contacted for further information?</p> <p>TV Program Schedules:</p> <p>I am negatively astonished by the prevailing monoculture in TV program schedules especially on Sunday afternoons. It is sport, sport and sport again. I have nothing against others being sportive. However, I am of the opinion that a maximum of two TV channels with sport is more than sufficient on Sunday afternoons. There is obviously no coordination amongst the TV channel operators. Such a situation leads to a visionary monoculture in relation to BEvolution. Those responsible for such overall bleak TV program schedules cannot be wisely individuals because wisely individuals possess multiple visions and realisations. Eg., I strongly miss a science and technology TV channel. Over the last few decades know-how and knowledge about the cosmos and the solar system especially has increased exponentially in society. The TV medium is one of our best mediums for providing data and information. It makes use of the ear and eye senses which influence our perception of the world around us significantly. Among other things, a science and technology TV channel could be used by universities as a marketing tool to the wider community, thereby firstly, letting us know in more detail about their research work and studies, and secondly, generating more interest in individuals to become better educated and skilled.</p>

<i>MY GOAL</i>	<i>COMMENTS</i>
<p>Continue to realise and SENErgise education on BEvolution into the curriculum system.</p> <p>Comments continued:</p> <p>People who cannot recognise a palpable absurdity are very much in the way of civilisation. (Agnes Repplier, American essayist, 1858 - 1950)</p>	<p>Equity, or 'Having a Fair Go' for Every Student: I am negatively astonished about the lack of vigilance that prevails in this society when it comes to equity, or 'having a fair go' meaning a fair or reasonable course of action, in tertiary education.</p> <p>See ADFA (Australian Defence Force Academy) advertisement in 'The West Australian', Saturday, 13 October 2001, page 110, and compare it with advertisement by Curtin University of Technology and Edith Cowan University in 'The West Australian', Saturday, 13 October 2001, pages 32 and 62. What can be learnt from these advertisements when compared against each other?</p> <p>We can learn the following: If someone is ready to train how to kill, or murder, other individuals, ie. society is going to derive BEvolutionary debits from such actions, or she gets a financially free of charge university degree paid by society with the exception of some textbooks. On the other hand, if someone is ready to train, e.g. architecture, biomedical sciences, engineering sciences, public health, etc., he or she is damned to pay for her or his tertiary education although society is going to derive BEvolutionary credits from such actions. In my opinion, such a tertiary education concept is hostile to a wisely society as it depicts a surviving taint of medieval madness. It is definitely medieval there. I strongly reject this out-of-date concept of tertiary education because BEvolution demands from us to think equitably and to act truthfully.</p> <p>See also Diagrams.</p>

Ensure progressively that the people of Western Australia contribute to and implement national eco-labelling programs, such as the norms and standards established by the Australian Environmental Labelling Association.	<p>However, make sure that there is a limit to the number of norms and standards implemented. I envision a number of ten (10). Consumers will get confused if the number of eco-labelling norms and standards gets out of hand which only leads to a loss of productivity.</p> <p>See also especially Diagram 33 Diagram 34.</p> <p>However, the other diagrams also BEvolve wisely the vision of a wisdom society.
