As a semi-official card produced by a government department, this card is surely an interesting comment on the significant interest during the 1930s in Esperanto as a potential international language.

## **JK96. Jenolan Caves Series [n.l. 1920]**

Ph Charles Kerry

Pu N.S.W. Government Tourist Bureau

F Two styles; title may be superimposed on the photograph (JK96) or in lower margin (JK97). In both, the printed title is generally in sans-serif caps. In all JK96 cards, a number is included and we have incorporated this in our own number. Numbers appear on only a few of the JK97 series.

This can only be described as a somewhat enigmatic series. It was published some years after Kerry and Co closed down, but is clearly based upon Kerry photographs. It was evidently developed by Kerry under a special commission.
