

J01. Edward J. Cooke series [1901]

Ph & Pu Edward J. Cooke

F Printed with each photograph occupying the left-hand third of the card and placed within a wavy line frame containing title of view and the words 'Copyright/Edward J. Cooke, Photo.' Many cards are also rubber-stamped 'Regd. 6/11/01 - E.J.C.' or have this same wording printed below the photograph. This relates back to the short-lived practice of demanding formal registration of copyright. Some have the title printed both as above and hand-lettered on the negative so that it appears in white on the photograph. Back is undivided. All cards are H format, but pictures of H format are turned on one edge. Thus, details of format recorded below refer to the picture format only.
