

N.S.W.: Cliefden

We have not seen formal postcards from this area, but a souvenir booklet (Bone 1908) includes two pages of photographs of the Belubula (= Cliefden) Caves, each of which appears to have been copied from a postcard. There are twelve such photographs in all, each titled 'Belubula Caves/ Cliefden/ Copyright'

We also have a personal card which shows a group of horsemen and two buggies in a flat wooded area with rocky outcroppings. This is labelled on the back in ms. as "Cave Party / Rotherie's Caves / March 1907" and addressed to Carcoar. Rothery was one of the landowners at Cliefden.
