

Introducing the Bulmer Postcards

Howard Bulmer was the most prolific of all East Gippsland photographers, and was a close friend of Frank Moon at Buchan. He took the first photographs of Fairy Cave after Moon's discovery of the cave.

However, his publishing was far from systematic, and so it is difficult to distinguish particular series of cards. We list a couple of early series, but then, in order to make access to all his postcards as simple as possible, we have in general grouped them according to subject. Thus, we have:

Bairnsdale Advertiser Series

Bulmer & Caire Series

Fairy Cave

Royal Cave

Other caves

Surface Landscapes
